PHILADELPHIA AGAINST THE WORLD

GRAHAM AND GODEY, BOTH FOR \$4 PER ANNUM.

THE WIDESPREAD CIRCULATION and acknowledged ability of these popular Magazines, render long descriptions and elaborate puffery unnecessary. They are known and read in every corner of our country, and are as household words in the mouths of those who pretend to judgment in Literature or taste in Art. The pens of our most accomplished writers, as well as the burins of the ablest artists, are enlisted to enrich and adorn their pages—and all that is now famous in letters or beautiful in engravings, in the world of periodical literature, is owing to the fostering care and lavish expense of these two prominent American periodicals.

Their imitators fail always in equalling them, for want of public support, and the poor dupes who

Their imitalors fail always in equalling them, for want of public support, and the poor dupes who are led to subscribe to the hastily-born enterprises which spring up every year to delude the public, with promises of wind and words of sound, find that these well-established works are, as yet, the only reliable sources to which they can look for a faithful performance of all contracts entered into with subscribers.

The publishers of Godey and of Graham have determined that for 1853 they will surpass in the cheapness, elegance and merit of their periodicals, all that has ever been attempted, and as the works are dissimilar, have resolved to place both within the reach of all, who desire to keep thoroughly posted up in the reaidly simproving evidence if it. posted up in the rapidly-improving periodical lite-rature of the age.

The best and freshest, both in Literature and Art, will be found in their ample and greatly mul-

tiplied pages, and they challenge the world to ex-cel or equal the forthcoming volumes, either in the beauty and cost of their adornments, the merit and amplitude of literary matter, or in the cheapness and accomodating terms with which they are pre

sented to the American public.

Unequalled Terms to Clubs.
